

SHARROW: (Shar-row)

- **SHARED LANE MARKING** indicating where a bicyclist and motorist must share the lane.

Florida Statute Section, 316.2065 (1) Every person propelling a vehicle by human power has all of the rights and all of the duties applicable to the driver of any other vehicle.

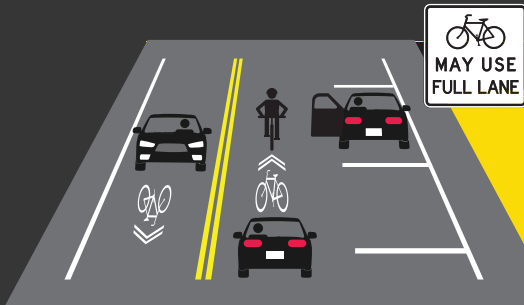

Sharrow Pavement Markings:

1. Pavement marking alerts motorists where to expect bicyclists.
2. Alerts bicyclists on where to use a full lane, under Florida Law.
3. Encourages safe passing.
4. Reduces wrong-way bicycling.

May Use Full Lane sign: informs road users that bicyclists might occupy the travel lane.

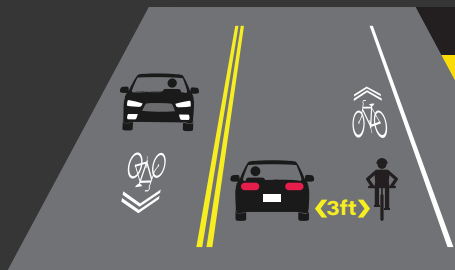

Example 1

A bicyclist may take the full lane when lane is too narrow, or when passing parked cars in order to avoid open doors.

Example 2

When two lanes are present, bicyclist may take full lane allowing drivers to pass.

Example 3

Sharrows can also be found on wide lanes. A driver overtaking a bicyclist must maintain a horizontal clearance of at least 3 feet between the car and bicycle, no matter the width of the lane.

Share the Road!
